

Directions Airport – Puro Atlantico (60 minutes)

Welcome to La Palma, you will find a route description below.

Please contact us **immediately after collecting the rental car** on one of the following numbers: +34 698 91 21 68 (Marja) or +34 698 940257 (Karel), so that we can organize ourselves to welcome you.

Due to the volcanic eruption in September 2021, the road network in the Aridane Valley has changed. Therefore, DO NOT blindly follow the navigation, but keep these directions at hand!

From the airport you first drive on the LP 5 towards Santa Cruz. After about 2 km turn off towards Los Llanos (LP 3), which you follow uphill. The road winds up to the tunnel in the Cumbre Vieja.

Follow the LP3 through the village of El Paso. Please note that before you reach El Paso, there is a speed camera at the Parque Nacional Caldera de Taburiente visitor center. You are not allowed to drive faster than 50 km/h here.

Follow LP3 through El Paso. A little further down you will pass a dental practice on the right, Clinica Dental (blue/white painted building). At the roundabout just past the Clinica Dental, take the first exit towards Los Llanos. Continue downhill, after about 700 meters take the left turn into the Camino Cruz Chica:

Follow the Camino Cruz Chica all the way down to the village of La Laguna. At the end, turn left onto the new road over the lava. At the roundabout take the 2nd exit (LP-213 Puerto Naos/La Bombilla/El Remo). Continue on the LP-213, there will be 2 more roundabouts. After the 2nd roundabout you will see the former restaurant 'La Mariposa' a little further on the right of the road. At the intersection directly after La Mariposa, turn left up the Camino La Majada. For orientation: there is also a sign in front of the intersection that indicates 'Las Norias' to the right. Drive the Camino La Majada up to the end. At the T-junction at the top, turn right onto the dirt road. Here is a sign 'Puro Atlantico'. After about 300 meters there is a small unpaved intersection, here too there is a sign 'Puro Atlantico'. Turn right here, approximately 250 meters downhill you will arrive at your destination.

If you have a problem or are delayed, please call us! We appreciate it if we don't have to wait for hours.
